**Type of work:** Interior Lighting

**Lighting Design:** Filippo Cannata

**Lighting Design team:** C. Masone

**Completed:** 2001

In this project light is in harmony with the space, its curves and its plots. Curtains made of transparent plastic become bright falls which divide the expositive space in a discrete manner; fabrics colours manage the bright direction creating warm and comfortable spaces. A particular attention was given to the choice of the light sources in order to avoid the alteration of colours, plots and details of fabric coverings.
